AEON CO., LTD.

**Aeon Donates Emergency Disaster Relief Funds to Support  
Regions Affected by “The 2016 Kumamoto Earthquake” (First Campaign)**

Aeon expresses its deepest sympathies and condolences to those who have lost their lives and their families in the 2016 Kumamoto Earthquake, and its hope for the earliest recovery of those who have suffered injuries and damages from the disaster.

Responding to the occurrence of the earthquake, Aeon held a fund-raising campaign (first campaign) from April 14 through April 24 at Group stores and offices throughout Japan to collect emergency relief and recovery donation. In total, 176,069,640 yen was raised during the first campaign.

On May 3, the public donation was combined with emergency relief funds of 100 million yen from Aeon Co., Ltd., and the total donation of 276,069,640 yen was presented to Kumamoto Prefecture.

Kumamoto and Oita Prefectures continue to suffer from aftershocks, and many people have been forced to live in temporary shelters. A significant amount of time will be needed for the regions to fully recover. Aeon prays that the disaster-affected people can resume their normal lives as early as possible. We take this opportunity to thank the many people throughout Japan who warmly supported the fund-raising campaign.

To continue disaster relief activities for Kumamoto and Oita, Aeon planned to carry out its second fund-raising campaign until May 8 at Group stores and offices. Considering the time required for the regions to recover, however, the campaign has been extended until May 31.
