

Planting of mangroves by 1,000 volunteers from Japan and Indonesia
(Sep. 22, 2018, Jakarta, Indonesia)

Biodiverse Forests for Our Future

-Tree Planting Activities-

At Aeon, we consider our tree planting activities as a means to embody the basic principle of “Pursuing peace, respecting humanity, and contributing to local communities, always with the customer’s point of view at its core.” Since we started planting trees with our customers in 1991, a total of 11,660,000 saplings have been planted to date. The trees have taken root and grown into endearing forests in various locations in Japan and other Asian countries.

Aeon will continue to plant trees and create rich, green forests together with our customers.
